Great conversation over breakfast. Very helpful. Thanks for the time.

Here is my current slide deck for the VW case. Note slide 10 showing remote sensing data for petrol and diesel light duty vehicles in Europe.

I'll send another note to Janet about Paris with my schedule and copy you.

I'll also shoot a note to Gay suggesting Alberto to step in as my proxy for the CA MSTRS meeting. I think I would be the one to suggest it to him, but I want to clear it with Gay first.

Cheers

Drew
